

James Klena, M.D.

Dr. Klena is an experienced cardiothoracic surgeon who works closely with the pulmonary, oncology and radiology teams to provide a multidisciplinary approach to thoracic surgery. His clinical interests include, thoracic oncology, including multi-disciplinary therapy for lung cancer and robotic lung resection, and evolving technologies for cardiac revascularization.

When he is not caring for his patients, Dr. Klena enjoys sailing with his wife, fly-fishing and upland bird hunting with his Ryman Setter, Chester. He and his wife have four adult children, including two in the Marine Corps, and one grandchild, so they enjoy traveling to spend time with them.
